Salivary Gland Disorders and Diseases: Diagnosis and Management

Patrick J. Bradley, MBA, FRCS, FACS, FRACS (Hon), FRCSLT (Hon)

Past President of the European Salivary Gland Society

Professor Emeritus

Head and Neck Oncologic Surgery

Department ORL-HNS

Nottingham University Hospitals

Queens Medical Centre Campus

Nottingham

UK

Orlando Guntinas-Lichius, MD

Professor and Chairman

Department of Otorhinolaryngology

Institute of Phoniatria/Pedaudiology

Friedrich-Schiller-University Jena

Jena

Germany

With contributions by

A. van Nieuw Amerongen, N. Beasley, M. Becker, A. Bizeau, P.T. Bradley, C. Chossegros, R. Clarke,

P. Dirix, H.E. Eckel, J. Ekstroem, M. Ellies, A. Franchi, F. Faure, O. Gallo, G. Geerling, D.G. Grant,

K.J. Harrington, B. Hartley, R. Jonsson, M. Jungehuelsing, E.M. Karapanagiotou, N. Khosravani,

R. Laskawi, C.R. Leemans, J. Luker, F. Marchal, A. McCormick, C.M. Nutting, J. O'Hara, J. Olofsson,

V. Paleri, M.S. Quraishi, S.J. Rogers, N. Rotter, C. Scully, P. Sieg, S. Singer, A. Skálová, I. Stárek,

R.A. Tasca, C.H.J. Terhaard, A. Teymoortash, A. Triantafyllou, A.S. Tucker, V. Vander Poorten,

T. Vaněček, E.C.I. Veerman, A. Vissink, C. Wittekindt, J.A. Woolgar, A. Wright, P. Zbaeren

Contents

Section I Salivary Glands—Anatomy and Evaluation	1	5 Methods of Investigation	42
1 Embryology and Clinical Anatomy	3	<i>Orlando Guntinas-Lichius</i>	
<i>Abigail S. Tucker</i>		Introduction	42
Introduction	3	Examining the Patient	42
Clinical Anatomy	3	Examining Saliva	42
Embryology	6	Ultrasonography	43
2 Regulatory Mechanisms and Salivary Gland Functions	10	Fine-Needle Aspiration Cytology	44
<i>Joergen Ekstroem, Nina Khosravani</i>		Sialendoscopy	44
Introduction	10	Salivary Gland Biopsy	44
Functions of Saliva	10	Magnetic Resonance Imaging and Computed Tomography	44
Spontaneous and Reflex Secretion	11	Classic Sialography and Magnetic Resonance Sialography	44
Stimulus for Reflex Secretion	11	Salivary Gland Scintigraphy	45
Salivary Centers—Facilitation and Inhibition	12	Serologic Examinations	45
Efferent Pathways—Nontraditional Routes	12	6 Patient History and Clinical Examination	46
Neural Control of Salivary Gland Activity	12	<i>Claus Wittekindt</i>	
Hormonal Influences	15	Introduction	46
Sensory Innervation	15	Patient History	46
Early and Late Denervation Phenomena	15	Clinical Examination	49
Gland Weight	15	Ultrasonography	50
Effects of Aging	16	7 Evaluation of Salivary Glands—Imaging	55
Pharmacological Aspects	16	<i>Minerva Becker</i>	
3 Evaluation of Saliva—Normal and in Disease	19	Introduction	55
<i>Enno C.I. Veerman, Arie van Nieuw Amerongen, Arjan Vissink</i>		Conventional Radiography	55
Introduction	19	Conventional Sialography	56
Effect of Stimulation on Ion Composition and the Secretion Rate	19	Radionuclide Scanning	57
Effect of Stimulation on Protein Composition	20	Ultrasonography	58
Salivary Collection Procedures	21	Computed Tomography	60
Diseases of the Salivary Glands and Saliva	21	Magnetic Resonance Imaging	61
Saliva as a Diagnostic Tool for Other Diseases	25	MR Sialography	62
4 Contemporary Salivary Clinical Pathology—Facts and Dilemmas	27	PET/CT	64
<i>Julia A. Woolgar, Asterios Triantafyllou</i>		8 Fine-Needle Aspiration Cytology and Frozen Sections in Salivary Gland Diseases	66
Introduction	27	<i>Patrick J. Bradley, Orlando Guntinas-Lichius</i>	
Normal Structural Variations	27	Introduction	66
Inflammatory Diseases	28	Informed Consent	66
Cystic Diseases	31	Equipment Required	67
Benign Epithelial Tumors	32	Physician	67
Malignant Epithelial Tumors	35	Aspiration Techniques	68
Nonepithelial Tumors and Metastases	40	Slide Preparation	68
		Fixation Techniques	69
		Staining Methods	69
		Complications	69

Contraindications	69	12 Drooling	102
Accuracy	70	<i>Rainer Laskawi, Maik Ellies</i>	
The Role of Frozen-Section Diagnosis	70	Introduction	102
The Role of Core-Needle Biopsy	71	Definition	102
9 Diagnostic Sialendoscopy	73	Epidemiology and Etiology	102
<i>Cyrille Chossegros, Alain Bizeau</i>		Clinical Features	103
Introduction	73	Diagnostic Work-Up	103
Definition	73	Differential Diagnosis	103
Sialendoscopic Anatomy	73	Surgical Treatment	104
Patient Selection for Sialendoscopy	74	Nonsurgical Treatment:	
Clinical Features	75	Botulinum Toxin Injection	106
Diagnostic Work-Up	75	Outcome and Prognosis	107
Learning Sialendoscopy	77	13 Inflammatory and Infectious Diseases	
Anesthesia	77	of the Salivary Glands	110
Equipment	78	<i>Razvan A. Tasca, Ray Clarke</i>	
Operative Steps	79	Introduction	110
Contraindications	82	Definition	110
Complications	82	Epidemiology and Etiology	110
Postoperative Care	83	Clinical Features	111
Scope Sterilization:		Diagnostic Work-Up	111
Autoclave, Gas, Soaking	83	Treatment	113
		Parenchymal Infections	113
		Intrasalivary Lymphadenopathy	116
		Noninfective Conditions	118
Section II Pediatric Disorders	85	Section III Physiological Disorders	121
10 Congenital and Developmental Abnormalities	87	14 Dry Mouth and Dry Eyes	123
<i>Ben Hartley</i>		<i>Crispian Scully, Jane Luker, Austin McCormick</i>	
Introduction	87	Dry Mouth—Xerostomia and Hyposalivation	123
Epidemiology	87	Dry Eyes	128
Diagnostic Work-Up	87	15 Sialadenitis and Sialadenosis—Interventional	
Salivary Gland Aplasia and Duct Abnormalities	87	Sialendoscopy	136
Congenital Vascular Anomalies	88	<i>Cyrille Chossegros, Frédéric Faure,</i>	
First Branchial Cleft Anomalies	90	<i>Francis Marchal</i>	
Parapharyngeal Cysts	91	Introduction	136
Pediatric Salivary Gland Surgery	91	Definition	136
11 Salivary Gland Neoplasms	93	Indications and Patient Selection	137
<i>Patrick J. Bradley, Ben Hartley</i>		Diagnostic Work-Up	138
Introduction	93	Contraindications	139
Epidemiology and Etiology	93	Patient Information and Consent	139
Differential Diagnosis of Neoplasms	94	Anesthesia and Positioning	139
Clinical Features	95	Equipment	141
Diagnostic Work-Up	96	Procedural Steps	143
Histopathological Differential Diagnosis	97	Complications	149
Treatment	97	Postoperative Care	150
Radiotherapy	98		
Chemotherapy	99		
Management of Recurrent Neoplasms	99		
Outcomes and Prognosis	99		

16 Autoimmune Disorders, Lymphoproliferation, and Granulomatous Inflammation	152	20 Classification of Benign Salivary Neoplasms . .	193
<i>Roland Jonsson, Jan Olofsson</i>		<i>Patrick J. Bradley, Claus Wittekindt</i>	
Introduction	152	Introduction	193
Sjögren Syndrome (Autoimmune Sialadenitis, Mikulicz Disease, Chronic Sclerosing Sialadenitis)	152	Pleomorphic Adenoma	194
MALT Lymphoma	158	Warthin Tumor	195
Chronic Graft-Versus-Host Disease	159	Myoepithelioma	195
Sarcoidosis	161	Basal Cell Adenoma	196
HIV Infection	163	Oncocytoma	196
		Canalicular Adenoma	196
17 Cystic Salivary Gland Tumors Including Cystic Neoplasms	167	Sebaceous Adenoma	197
<i>Patrick J. Bradley</i>		Sebaceous and Nonsebaceous Lymphadenomas	197
Introduction	167	Ductal Papillomas	197
Definition	167	Cystadenoma	198
Clinical Classification of Cysts	168	Benign Nonepithelial Tumors and Tumorlike Lesions	198
Clinical Features	169		
Diagnostic Work-Up	169	21 Investigation	200
Benign Salivary Cysts	170	<i>Orlando Guntinas-Lichius</i>	
Mucoceles	171	Introduction	200
HIV-Associated Salivary Cysts	171	Clinical Features	200
Branchial Cleft Cysts	172	Diagnostic Work-Up	201
Ranulas	172	Preparation and Scheduling of Surgery	202
Cystic Salivary Gland Neoplasms	173		
Lymphoma	174	22 Surgical Management	203
Neurological Neoplasms	174	<i>Patrick J. Bradley, Nigel Beasley</i>	
Other Causes	174	Introduction	203
		Surgical Anatomy of the Parotid Gland and Parapharyngeal Space	203
Section IV Benign Salivary Gland Neoplasms	177	Surgical Anatomy of the Submandibular Gland	208
		Surgical Anatomy of the Sublingual Gland	209
18 Epidemiology of Benign Salivary Gland Neoplasms	179	Surgical Anatomy of the Minor Salivary Glands	210
<i>David G. Grant, Paula T. Bradley</i>		Indications and Patient Selection	210
Introduction	179	Patient Information and Consent	210
Etiology of Benign Salivary Gland Tumors	179	Anesthesia and Positioning	211
Classification	180	Operative Steps—Parotid Gland	211
Data and Site Distribution	180	Operative Steps—Submandibular Gland	216
Incidence Reports of Benign Salivary Tumors	183	Operative Steps—Sublingual Gland	218
		Operative Steps—Minor Salivary Glands	219
19 Etiology	187	Tips and Tricks in Salivary Surgery	219
<i>Alena Skálová, Tomáš Vaněček, Ivo Stárek</i>		Complications	220
Introduction	187	Postoperative Care	221
Radiation	187	Outcomes	221
Viruses	187		
Other Environmental Risk Factors	188	23 Radiotherapy	224
Genetics	188	<i>Susanne J. Rogers, Christopher M. Nutting</i>	
		Introduction	224
		Clinical Presentation	224
		Treatment	224
		Indications and Patient Selection for Radiotherapy	225
		Patient Information and Consent	226
		Radiotherapy Treatment Technique for Electrons	226
		Radiotherapy Treatment Technique for Photons	226
		Radiotherapy Dose	228
		Outcome and Prognosis	228
		Complications and Limitations	230

24 Recurrent Benign Salivary Tumors	233	28 Imaging Examinations	274
<i>Orlando Guntinas-Lichius, C. René Leemans, Patrick J. Bradley</i>		<i>Minerva Becker</i>	
Introduction	233	Introduction	274
Epidemiology and Etiology	233	Choice of Imaging Method	274
Diagnostic Work-Up	234	Ultrasound Features of Salivary Gland Malignancies and Differential Diagnosis	275
Surgery for Benign Recurrent Disease	236	CT Features of Salivary Gland Malignancies and Differential Diagnosis	276
Operative Steps	239	MR Features of Salivary Gland Malignancies and Differential Diagnosis	277
Complications	241	Features on FDG-PET/CT	282
Postoperative Care	242		
Postoperative Radiotherapy for Benign Recurrent Disease	242	29 Surgical Management	285
		<i>Hans E. Eckel, Markus Jungehuelssing</i>	
		Introduction	285
Section V Malignant Salivary Gland Neoplasms	245	Indications and Patient Selection	285
		Choice of Surgical Procedure	287
25 Epidemiology of Malignant Salivary Gland Neoplasms	247	Informed Consent	288
<i>David G. Grant, Paula T. Bradley</i>		Anesthesia and Positioning	288
Introduction	247	Surgical Steps	289
General Concepts and Complexities	247	Postoperative Radiotherapy	295
Problems in the Published Epidemiological Data	247	Complications and Sequelae of Surgery	295
Institutional Studies	248	Measures for Specific Complications	296
Databases and Population-Based Studies	249	Postoperative Care	296
		Outcomes	297
26 Etiology	252	Follow-Up after Curative Surgery	298
<i>Alena Skálová, Tomáš Vaněček, Ivo Stárek</i>			
Introduction	252	30 Radiotherapy	301
Radiation	252	<i>Chris H.J. Terhaard</i>	
Viruses	253	Introduction	301
Lifestyle and Nutrition	253	Patient Selection	301
Occupation	253	Indications for Radiotherapy	304
Hormones	253	Results of Local and Locoregional Radiotherapy Radiotherapy Techniques	305 308
Genetics	253	Future Directions	311
27 Malignant Salivary Gland Neoplasms— Classification	262		
<i>Patrick J. Bradley, Claus Wittekindt</i>		31 Chemotherapy and Novel Therapeutics	315
Introduction	262	<i>Kevin J. Harrington, Eleni M. Karapanagiotou</i>	
Histogenesis of Malignant Salivary Gland Neoplasms	262	Introduction	315
TNM and Stage Groupings	264	Epidemiology and Etiology	315
Acinic Cell Carcinoma	264	Molecular Biology of Salivary Gland Cancer	315
Mucoepidermoid Carcinoma	266	Clinical Features	316
Adenoid Cystic Carcinoma	266	Indications and Patient Selection	317
Polymorphous Low-Grade Adenocarcinoma	267	Diagnostic Work-Up	317
Oncocytic Carcinoma	267	Treatment	317
Salivary Duct Carcinoma	267	Outcomes and Prognosis	320
Carcinoma Ex Pleomorphic Adenoma	268		
Squamous Cell Carcinoma	268	32 Neck Metastasis	323
Lymphoepithelial Carcinoma	269	<i>Peter Zbaeren, Patrick J. Bradley</i>	
Other Rare Salivary Gland Malignancies	269	Introduction	323
		Prognostic Impact of Lymph-Node Metastases	323
		Incidence of Clinically Detectable Neck Metastases	324
		Occult Metastases	325

Neck Recurrences	325	Follow-Up in High-Risk Patients	370
Treatment of the Node-Positive Neck	326	Treatment	371
Treatment of the Node-Negative Neck	326	Merkel Cell Carcinoma	371
Neck Dissection Surgery	327	Malignant Melanoma	372
Complications of Neck Dissection	331	Parotid Lymph-Node Metastases from Noncutaneous Head and Neck Cancer	372
33 Locoregional Recurrence and Its Management	333	Direct Invasion of the Parotid by Head and Neck Cancer	372
<i>Orlando Guntinas-Lichius</i>			
Introduction	333	37 Metastases to the Major Salivary Glands from Non-Head and Neck Primary Malignancies	374
Epidemiology and Risk Factors for Recurrence	334	<i>James O'Hara, Vinidh Paleri</i>	
Diagnostic Work-Up	334	Introduction	374
Surgery for Local Recurrence	335	Metastases to the Parotid Gland	375
Surgery for Regional Recurrence	339	Metastases to the Submandibular Gland	376
Radiotherapy for Locoregional Recurrence	339		
Chemotherapy or Biological Agents for Locoregional Recurrent Disease	340	38 Principles of Facial Reanimation Surgery	378
34 Distant Metastases and Management	341	<i>Orlando Guntinas-Lichius</i>	
<i>Alessandro Franchi, Oreste Gallo</i>		Introduction	378
Introduction	341	Direct Facial-Facial Nerve Reconstruction	378
Basic Mechanisms of Metastasis	341	Facial-Facial Nerve Interpositional Graft	381
Clinical Features and Pathological Aspects	344	Hypoglossal-Facial Nerve Jump Anastomosis and Combined Approach	382
Follow-Up	346	Upper Eyelid Surgery	385
Diagnostic Work-Up	346	Dynamic Procedures with Regional Muscle Transposition	386
Treatment	347	Static Procedures with Slings	388
35 Prognostic Index for Overall Disease Control in Patients with Parotid Carcinoma	350	Free Microvascular Flaps	391
<i>Vincent Vander Poorten</i>		Adjuvant Procedures	391
Introduction	350	39 Morbidity of Treatments	393
Overview of Prognostic Research	350	<i>Orlando Guntinas-Lichius</i>	
Disease-Specific Survival in Patients	351	Introduction	393
Results of Univariate and Multivariate Survival Analysis	352	Transient and Permanent Facial Nerve Palsy	393
Interpretation of P Values	352	Salivary Fistula and Sialocele	394
Development of a Prognostic Index for Disease Control	355	Gustatory Sweating	395
External Validation of the Prognostic Index	357	Facial Depression Deformity	397
Limitations of the Current Prognostic Index System	361	Scar Cosmesis	398
Future Developments in Prognostic Research	362	Paresthesia in the Ear Region	399
Section VI Other Topics	365	Lingual or Hypoglossal Nerve Injury	399
36 Malignant Head and Neck Tumors and Skin Cancer Infiltrating the Parotid Glands	367	40 Trauma-Induced Problems in the Salivary Glands	402
<i>Afshin Teymoortash</i>		<i>Vinidh Paleri, M. Shahed Quraishi</i>	
Introduction	367	Introduction	402
Parotid Lymph Nodes and Skin Cancer	367	Clinical Anatomy	402
Parotid Lymph-Node Metastasis and Cervical Lymph Nodes	368	Definition	402
Risk Factors for Lymphogenic Metastasis of Skin Cancer	368	Epidemiology	404
Prognosis	369	Clinical Features	404
		Diagnostic Work-Up	404
		Treatment	406
		Late Sequelae of Injury	407

41 Quality of Life in Salivary Gland Diseases	410	44 Salivary Gland Regeneration and Tissue Engineering	439
<i>Susanne Singer</i>		<i>Nicole Rotter</i>	
Introduction	410	Introduction	439
Definition and Concept	410	Epidemiology and Etiology of Salivary Gland Hypofunction	439
Measurement	411	Morphology and Mechanisms of Postradiotherapy Salivary Gland Hypofunction	439
Specific Problems in Salivary Gland Diseases	414	Current Treatment Modalities for Xerostomia	440
Measures to Improve Quality of Life	415	Experimental Treatments	441
		Future Trends	448
42 Influence of (Chemo-)Radiotherapy on Salivary Gland Function and Its Impact on Quality of Life	419	45 Medicolegal Issues	451
<i>Chris H.J. Terhaard, Piet Dirix</i>		<i>Antony Wright</i>	
Introduction	419	Introduction	451
General Aspects	419	Definition of Negligence	451
Xerostomia after Radiotherapy	420	The Steps in a Medical Negligence, Tort-Based Claim	453
Dose-Response Curves	422	No-Fault Compensation Schemes	454
Radiation Techniques for Sparing the Salivary Glands	424	Duty of Care	455
Amifostine and Radiation-Induced Xerostomia	427	Standard of Care	455
Pilocarpine for Preserving Parotid Function	427	Consent	456
		Causation	458
43 Salivary Gland Transplantation	430	How to Avoid Being Sued	459
<i>Peter Sieg, Gerd Geerling</i>		Special Issues Concerning Salivary Gland Surgery	460
Introduction	430	46 New Developments in Molecular Biology	463
Definition	430	<i>Vincent Vander Poorten</i>	
Physiology and Pathophysiology	430	List of Abbreviations	463
Indications and Patient Selection	431	Introduction	463
Diagnostic Work-Up	432	Recent and New Developments	464
Patient Information and Consent	432	Conclusions and Future Developments	470
Anesthesia and Positioning	432	Index	474
Operative Steps	432		
Postoperative Care	434		
Complications	435		
Outcome	436
